

HYBRID ADVANTAGES

- Very strong agronomics
- Great plant and ear height that is maintained in tougher conditions
- Very good overall disease package
- Best performance when kept in zone and North

Ear Height: ML= Medium Low, M= Medium, MH= Medium High

Ear Type: F= Flex, D= Determinate

POSITIONING & MANAGEMENT

This excellent northern hybrid also moves west. LH 2977 VT2 PRO RIB flowers early for this relative maturity. It holds plant height and ear height in stress situations. This hybrid performs well in low-yield environments and responds to higher populations on more productive soils.
