POSITIONING & MANAGEMENT

At the 98-day RM, this hybrid brings a flex ear that prefers low to medium population levels, exceptional test weight, very good dry down, stalk health, and resistance to common rust. LH 4909 SS RIB should be planted throughout central Minnesota, southern Wisconsin and the northern tier of counties in Iowa with confidence. LH 4909 SS RIB is a great choice for early planting and brings strong drought tolerance to the farm.
